

Hi Amanda,

Firstly, thanks so much for your time and help last Friday.

I have attached the floor plans of the house with all windows highlighted. We've decided that we won't be needing bathroom blinds anymore however, if you could please measure up for curtains and blinds on the windows I've highlighted on the plan?

So in total there are 13 pairs of curtains needed and 2 blinds (see details below).

- 6 bay windows (I'd like the curtains to go into the bays rather than sit on the outside) highlighted in PINK
- 7 standard windows (blackout curtains) highlighted in BLUE
- 1 floor to ceiling window (roman blind) and 1 standard window (roman blind) highlighted in GREEN

As discussed, for 5 of the bay windows (GF.01 Living 1, GF.02 Living 2, 1F.02 bed 1, 1F.01 bed 2 and 1F.06 bed 4) and 2 of the standard windows (GF.02 Living 2 & 1F.02 bed 1) I'd like 2 pairs of curtains running on tracks one in front of the other with the voile (Mistral FR linen weighted sheer HALO/03/L Chalk) running behind and the thicker curtain (Ashley Wilde – Loire, colour: linen) in front so that the voile can be closed separately to the main curtain. Amanda, we did talk about not including the voile on the 2 standard windows but if you could please quote including the voile, using the same double track idea as the bays.

The 6th bay window (GF.06 Study) needs to also be on a double track with the same voile behind and the dark green material we chose as the main curtain (Ashley Wilde – Florenzo colour: pine).

There are 5 remaining windows (1F.04 bed 3, 1F.08 bed 5, 1F.09 bed 6, 2F.03 bed 7 and 2F.04 bed 8) that will all need blackout material curtains (material and track/rail to be chosen).

There is 1 large roman blind to go in 1F.01 bed 2 in the same material as the bay window curtain (Ashley Wilde – Loire, colour: linen).

There is 1 roman blind to go in 2F.04 bed 8 in the same blackout material to be chosen for the curtains.

I appreciate this is a lot of information, but I have included Chris (our site manager) in the email who will hopefully be around when Chris goes to measure up on Wednesday 5th Feb if he needs any help.

If there's anything else you need please get back to me.

Thanks,

Kate
