Rouken Glen Road,
Giffnock.
G46 6UG.

For the attention of: Ms Claire Arthur:

Ref: External Free Standing Awning, Glen Family Centre Nursery, Woodfarm Road, Glasgow, G46 7JJ.

Dear Ms Arthur,

Further to our recent meeting at the above site to discuss the option of installing a Markilux Syncra 2 Uno flex with stabilization boxes and a Markilux 1600 semi cassette awning with remote control electric operation with a wind override facility, please find our supply and fit cost for the items listed below:

Markilux syncra 2 uno flex, with markilux 1600 awning. The system shall be manufactured in the standard RAL colour of your choice from the range, the system shall be at a height of 348cm above FFL when retracted and shall come complete with round posts and 2 no. stabilization boxes that shall be filled with 625 kilo's of ballast each. The Markilux 1600 shall have electric operation via a Smoove battery operated wall switch and shall also have a Eolis RTS wind sensor that shall automatically retract the awning. If the wind speed exceeds the allowable limit, The awning shall be covered in the material of your choice from the Markilux Sunvas or Sunsiljk ranges of fabric.

Dimensions 5500mm wide x 3500mm projection

Total Cost £8550.00

All prices are exclusive of Vat.

We shall supply the Hirschman connector for your electrical contractor to provide the power supply to the motor position.

The footings for the stabilization boxes also requires to be levelled prior to us installing as this would leave the awning system to lean forward and we would not be able to raise the awning when extended to above head height.

Yours faithfully,

Stephen Boyce,
Contracts Manager.
