Hi Chris

Hope you are well

We have been to Binnie Street to carry out the blind repair works. All went well except for one of the Velux blinds which is not working at all so we could not re-program that one. If you would like us to supply and install a new electric Velux to match the existing blinds this would be **£600.00 plus VAT**. This include all access equipment required to install the blind.

If you would like to go ahead with this please just let me know.

Kind Regards
Allison

Classification: Official

I'm in the process of going through the returned quotes for the above works and would just like to clarify something before I pass the report on to the Client Group Manager.

From your emailed quote, I'm assuming there is no access costs associated with the blinds repairs themselves?

That this cost is only relevant against the skylight motor repairs aspect?

So the actual roller blinds aspect is £270 only?
