

The awning with both elegant curves and clean lines.

**markilux MX-3**

The know-how and long-standing experience of the engineers, product and textile designers at markilux have been brought together in the creation of this solar protection system. A new awning that shows real character over its entire width: In the design of its innovative technology, its quality and in the unequalled choice of markilux fabric patterns and colours.

It cuts a good figure and offers perfect sizes as well. Ideal for giving you maximum pleasure and beautiful shade: up to 600 cm x 300 cm or 500 cm x 350 cm (awning width x projection).

**Safe and versatile**

Clever installation solutions for face, top or eaves fixture keep the awning securely in place and safe. The pitch can be varied between 5 and 35 degrees when face fixing the awning and between 5 and 70 degrees in the case of top or eaves fixture.

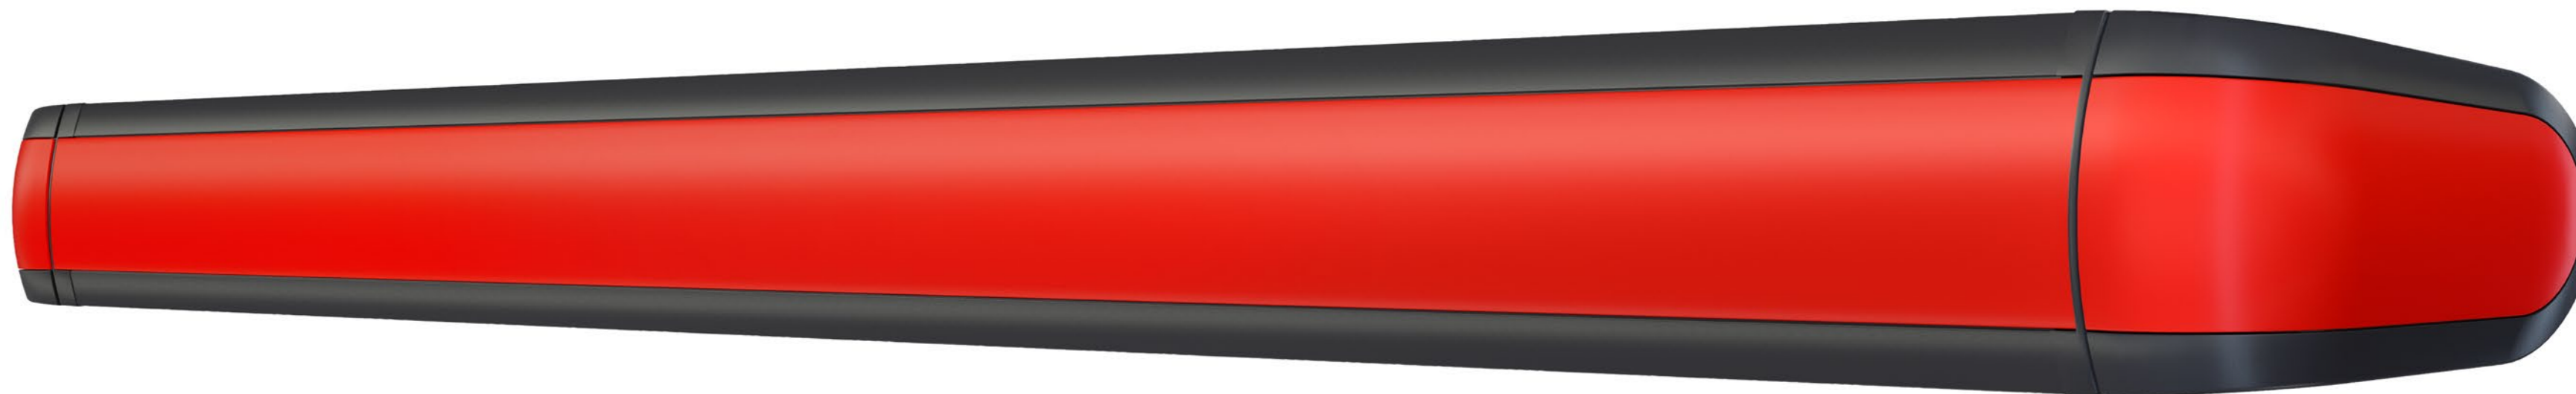

**High-tech innards**

The bionic tendon developed by markilux made of high-tech fibres uses nature as its source of inspiration. It provides the best possible transfer of power to the front profile as well as negligible friction and virtually silent operation when the arms are being folded.

**Invisible power**

A cassette with arms completely encompassed by the front profile when the awning is closed.

**All your favourite colours**

Choose your own personal awning fabric colour using the Colour on Demand system. Optional accessory.

**Lighting that gives a pleasant atmosphere**

Integrated, energy-saving LED-Line. Optional accessory.

**Directional accentuated lighting**

Powerful LED-Spots. Optional accessory.

MX-3

# Perfection. All-round. markilux MX-3

### Innovation with character

Shapely curves, clear lines and a fascinating colour palette – these are the strong character traits of the new markilux MX-3. The colour choice of the all-round styling panel offers a unique personalization option and makes the hearts of patio and balcony owners beat faster.

When closed, the awning makes a good impression with its harmonious appearance, and when opened it fully reveals its technical superiority. And in addition this innovative designer awning also impresses with its exceptional price to performance ratio.

markilux MX-3 – the awning with both curves and straight lines. Put only the best between you and the sun: Create the most seductive shade in the world.

# As individual as your life.

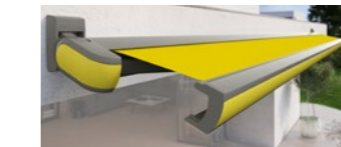

Colour is an expression of personality  
With the colour specification system Colour on Demand, markilux offers you – in cooperation with RAL – the opportunity to fashion your own personal awning heaven. 1625 colours. innumerable possibilities. Unique in Germany. Unique in the world.

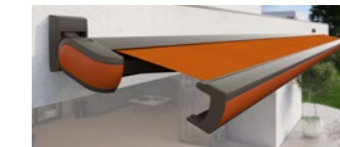

### Colour and verve unlimited

The markilux MX-3 is well ahead of its time. Not only with its trend setting design but in particular with the option of personalizing the colour of this designer awning. The markilux standard frame colours – and the surrounding styling panel in eight additional contrasting colours – can be combined freely and if so desired also paired with matching fabric patterns. For even more individuality, the cassette, all-round styling panel and cover fabric colour can be selected from their respective RAL colour swatches.
