<i>High Level Windows</i>			
15	East & West Elevation	Roller 63	7,043.09
4	East Elevation	Roller 63	2,222.67
		Delivery to IOM	1,761.75
			29,918.69

Electrician costs, scaffolding and labour costs to be quoted separately after building completion and full site survey undertaken

Fabric characteristics:

Fabrics can always show some waviness or wrinkles, 100% flat fabrics – especially with larger systems – are not likely to be achieved.

Larger sized systems can have horizontal weld(s), depending on the sizes and fabric choice.

Noise:

The motor produces noise during operation, larger systems requires higher torque motors and will make more noise than standard roller blind systems.

Maintenance:

Even though these systems are almost maintenance-free it is important that they undergo an annual check by the certified installer. This way we ensure that the systems are running freely (e.g. no extra wear) and for example loose screws by vibrations or anything else can be tightened up. Also, the motor settings can be checked and, if required, re-set in case the fabric has stretched slightly.

I thank you for your enquiry and look forward to hearing from you in the near future.

Yours sincerely

Chris Flood
Sales Manager

Note: Prices remain valid until the end of 2021.
Delivery time- approx.10 weeks from order.
