

# Era Inn Edge S

## Li-ion

For interior roller blinds - with integrated rechargeable battery, electronic limit switch and built-in radio receiver.

\* without feedback

### S size

Ø 35 mm

**Obstacle detection** while opening and closing.

**Perfect blind alignment, even with multiple installations:** constant motor speed under all load conditions allows Era Li-ion to be the only battery motor with perfect hembar alignment every time.

**LED status lights indicate battery state of charge and diagnostics.**

#### Go To Position function:

simply touch the desired position on the touchbar of a compatible transmitter to move the blinds to this position. Available with the Nice remote controls P1V and P6SV.

**Constant speed up/down.**

**Adjustable open and close speed via touchbar slider.**

**Electronically controlled Soft Start and Soft Stop functions** enables Smooth Move technology.

**On/Off switch makes programming multiple motors simple.**

<b>E EDGE SI 228DC</b>	Electronic limit switch, built-in radio receiver and integrated rechargeable battery. 2 Nm, 28 rpm	1	CE

NB: When ordering, please specify the certification required.

### TECHNICAL SPECIFICATION

Code	E EDGE SI 228DC
<b>TECHNICAL DATA</b>	
Motor Diameter Ø	35 mm
Length «L» (mm)	530
Protection Class	IP30
Torque (Nm)	2
Nominal speed (rpm)	28
Working temperature (°C)	0 - 60 °C / 32 - 140 °F
Noise (dBA)*	35
Radio	433 MHz monodirectional (F-CODE)
<b>BATTERY FEATURES</b>	
Battery type	Lithium-Ion
Battery life (months, 1 cycle/day)	12
Capacity (Wh)	45
<b>ALIMENTATION</b>	
Connector	USB TYPE C (magnetic connector optional)
Recharge system	USB PD up to 60W
Recharge speed (h)	1,5 (approx.)

\*\*Noise level measured in accordance with EN ISO 3745, EN ISO 3746, EN 60704-1. Noiseless brake.
