PRECISE DESIGN MADE IN BRITAIN

Dedicated to bringing you stylish designs made to the highest of standards, we have worked with skilled artisans here on home soil, to design a collection which thanks to its simplicity, is both elegant and enduring.

Made in Britain using the finest materials, skilled craftsmen breathe life into the Arc Collection; high grade, mild steel metalwork is transformed into exquisitely finished pieces, with an inner strength thanks to its heavy gauge for unrivalled quality. Products are carefully prepared by hand and finished in an attractive palette of satin and metallic powder coated finishes, for superior resilience and durability without compromising on style.

A truly bespoke collection, Arc may be purchased as complete sets or individual components for greater flexibility, with the option to have your pole cut to your exact requirements for an easy, tailor made solution via our Cut Down Service. In addition, our made to measure bay pole service, guarantees a premium custom-made product for the perfect fit.

IT'S ALL IN THE DETAIL

Transform interior spaces with the simple lines and distinctive silhouettes of Arc. Available in a choice of 4 modern finial designs and 10 contemporary colours, Arc poles complement relaxed or refined drapes, whilst remaining minimal and discreet.

A true classic, the Ball finial is the definition of refined simplicity, with timeless appeal. The streamline Disc finial is the perfect choice to give your interior a clean, modern finish. Our Hammered Disc evokes vintage forged ironwork in a contemporary shape, with its artisanal finish and character. A simple elegantly understated style, the Stud is the perfect space-saving choice for tighter spaces.

Available as a refined 25mm pole, the Arc collection showcases the beauty and durability of powder coating finishes and allows the colour to shine through. A choice of satin tones or subtle metallic hues enhance the decorative appeal of this collection.

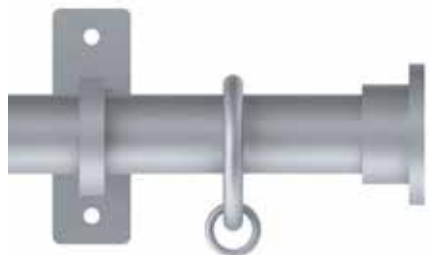

SOFT SILVER

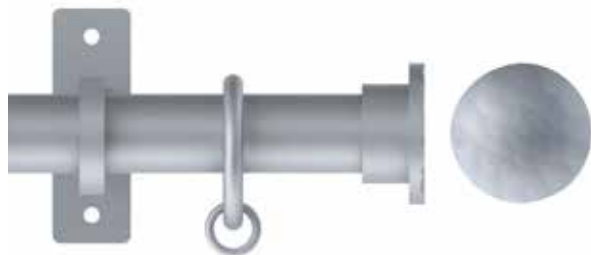

A subtle shimmer gives Soft Silver its light appearance and an element of luxury, the perfect shade for any modern home, requiring a touch of opulence.

Ball

Disc

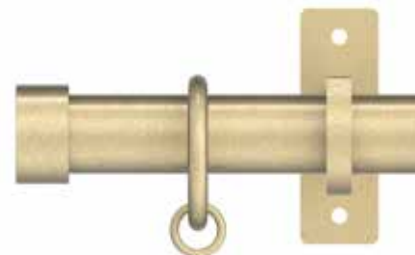

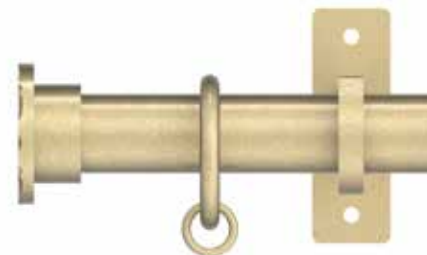

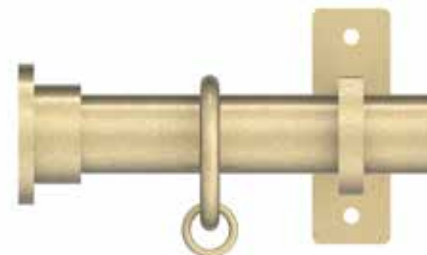

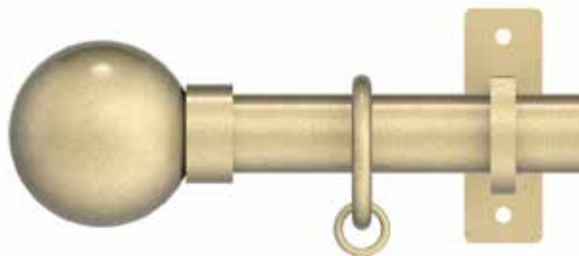

Hammered
Disc

Stud

SOFT BRASS

A lustrous shade, which will create impact whilst adding depth and dimension to the window. Pair with paler neutrals for understated glamour or with darker hues for intrigue and drama.

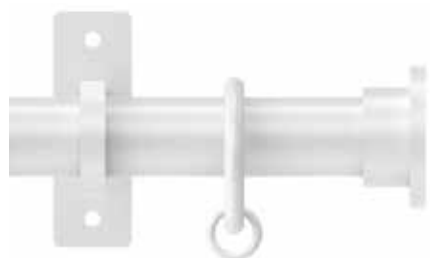

CHINA WHITE

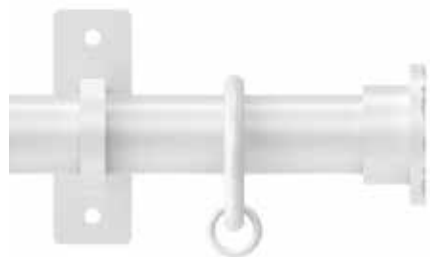

A soft versatile white, for fresh, laid back interiors. Blend into your wall colour for a clean look, or contrast with stronger tones, for a more graphic style.

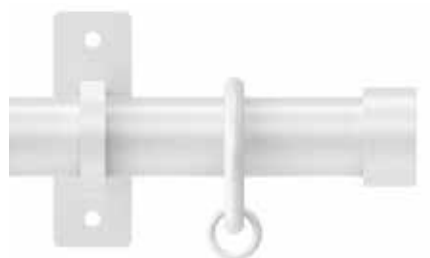

Ball

Disc

Disc**

Stud

LINEN

A hushed and calm colour, our Linen shade is perfect when a warmer tone is required.

WARM GREY

A timeless grey, versatile and understated. Warm Grey works brilliantly in any setting.

Ball

Disc

Eyelet Pole Sets available in lengths **150cm | 200cm | 250cm | 300cm | 400cm**

Poles sets 300cm and above are supplied in two pieces with a joiner.

All Eyelet Pole Sets can be personalised to your exact pole length via our Cut Down Service.

Poles of 250cm and above are supplied with 3 brackets (2 End and 1 Centre Bracket).

A PERFECT FIT

Bay windows are a stunning feature in a room but can present a challenge. Our Arc Bay Poles offer an elegant, made to measure solution to suit a variety of bay window configurations, and are available in lengths of up to 5m for angled bay poles or curved poles.

Your curtain pole will be professionally bent to your exact specification, then powder coated to ensure a superior, unfurnished finish. Select up to 4 Internal bends or 1 curve and up to 2 reverse bends per pole, for a perfect fit.

To order your Arc Bay Pole use item no. **ARC/MTM**.

All bracket styles are suitable for use with bay poles and passing brackets will be supplied to support the bends. Due to the quality and thickness of the high-grade steel pole, one passing bracket per side is usually sufficient, although you may wish to request additional passing brackets for heavier applications. Where return bends are requested, an additional passing bracket is supplied per reverse bend.

Bay poles are supplied with passing rings to allow drapes to move freely along the pole. The rings are supplied at 10 per metre as standard, but the option to request 12, 14 or 16 rings per metre is available.

CURVE APPEAL

Our carefully engineered bay poles follow the curves of your window, to create a refined, custom made solution for most bay pole configurations. The simple diagrams below illustrate the various shapes you can achieve to help you find the perfect solution, for your needs.

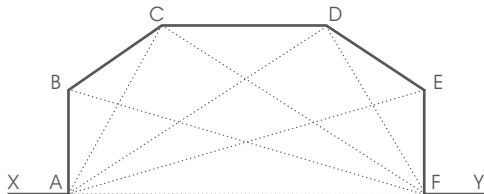

Single Internal Bend with or without return

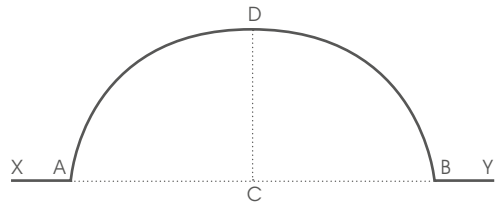

Two internal bends - Square or splayed, with or without returns

Four Internal Bends, with or without returns

Gradual Curve, with or without returns

Diagrams are for representation purposes and intended as a guide to the options available only.
